

GoRed for Women Montgomery County

Conroe Regional Medical Center (CRMC) along with the American Heart Association presented the annual Montgomery County/Northwest Harris County *GoRed for Women* luncheon on May 14th at the Woodlands Waterway Marriott.

The event raised **\$141,000** for the American Heart Association, an increase of nearly \$27,000 over last year.

"We had some of our area's most chic boutiques and vendors offering shopping for everything from shoes, handmade jewelry, haute clothing, handbags, fine cosmetics and of course, our 'Purseonality' Auction"

... said Sharla Shumaker, co-chair for the 2010 luncheon and Director of the Heart and Vascular Institute at CRMC.

"Everyone left this event with some kind of treasure and most importantly, they walked away with an awareness of how to take charge of their heart health."

Conroe Regional Medical Center continues its commitment to the hearts of Montgomery County with its **Live.Love.Learn.Red** campaign that includes a three-year sponsorship of all three Montgomery County AHA events:

1. Go Red for Women Luncheon
2. Start! Heart Walk
3. Heart Ball
